our planet!

Deep Earth Explorers

Sedgwick Museum of Earth Sciences 2020-2021

Sedgwick Museum
of Earth Sciences

Inside the Earth...

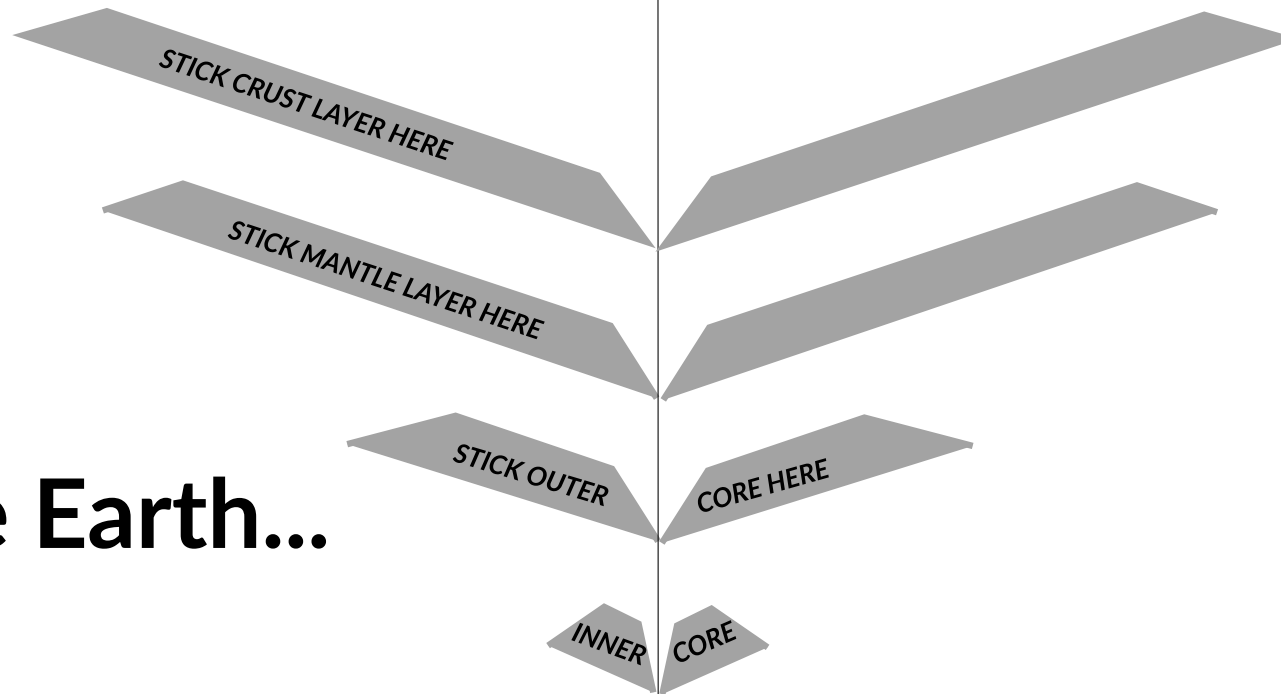

Layers of the Earth

CRUST:
the thin outer shell of the Earth that we all live on!

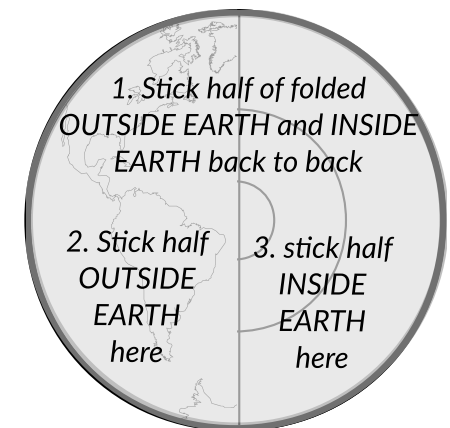

MANTLE:
a solid layer of rock making up the largest part of the Earth

OUTER CORE:
where flowing liquid metal generates the magnetic field

INNER CORE:
a solid ball of metal right in the centre of our planet

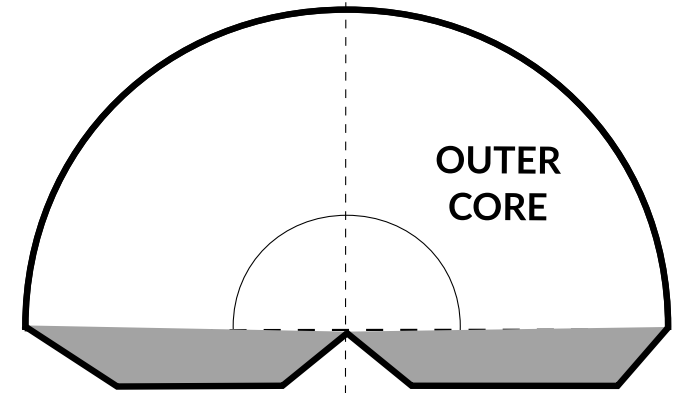

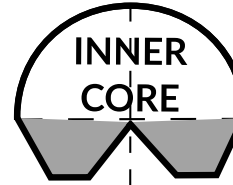

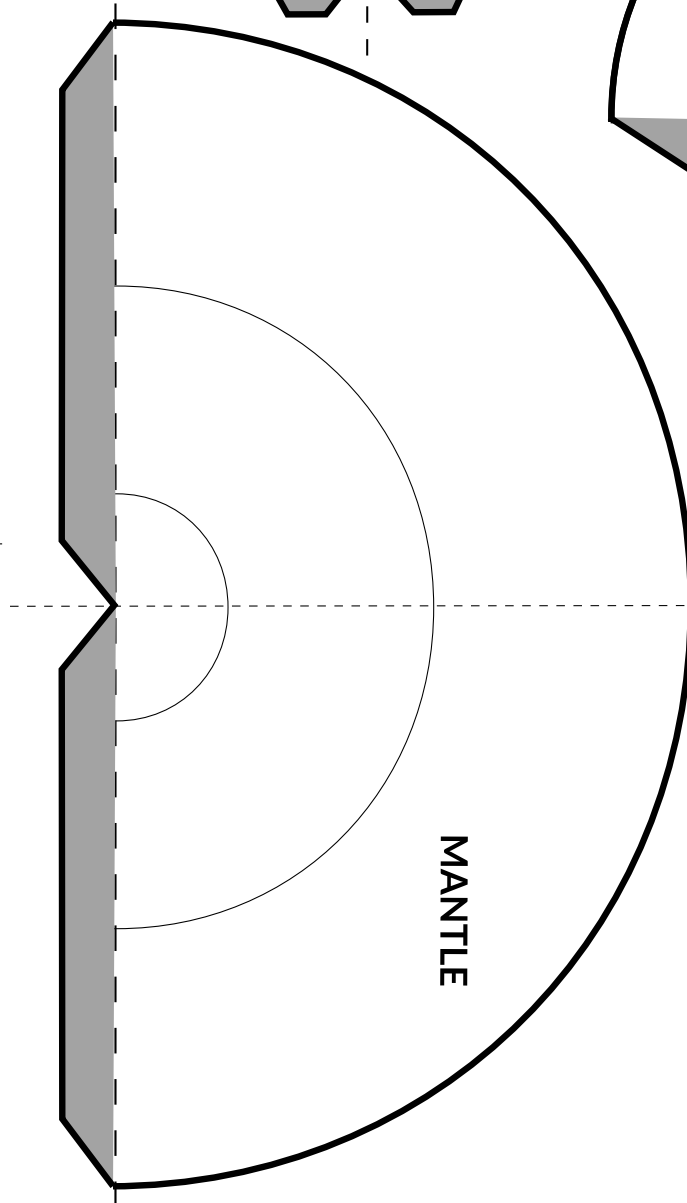

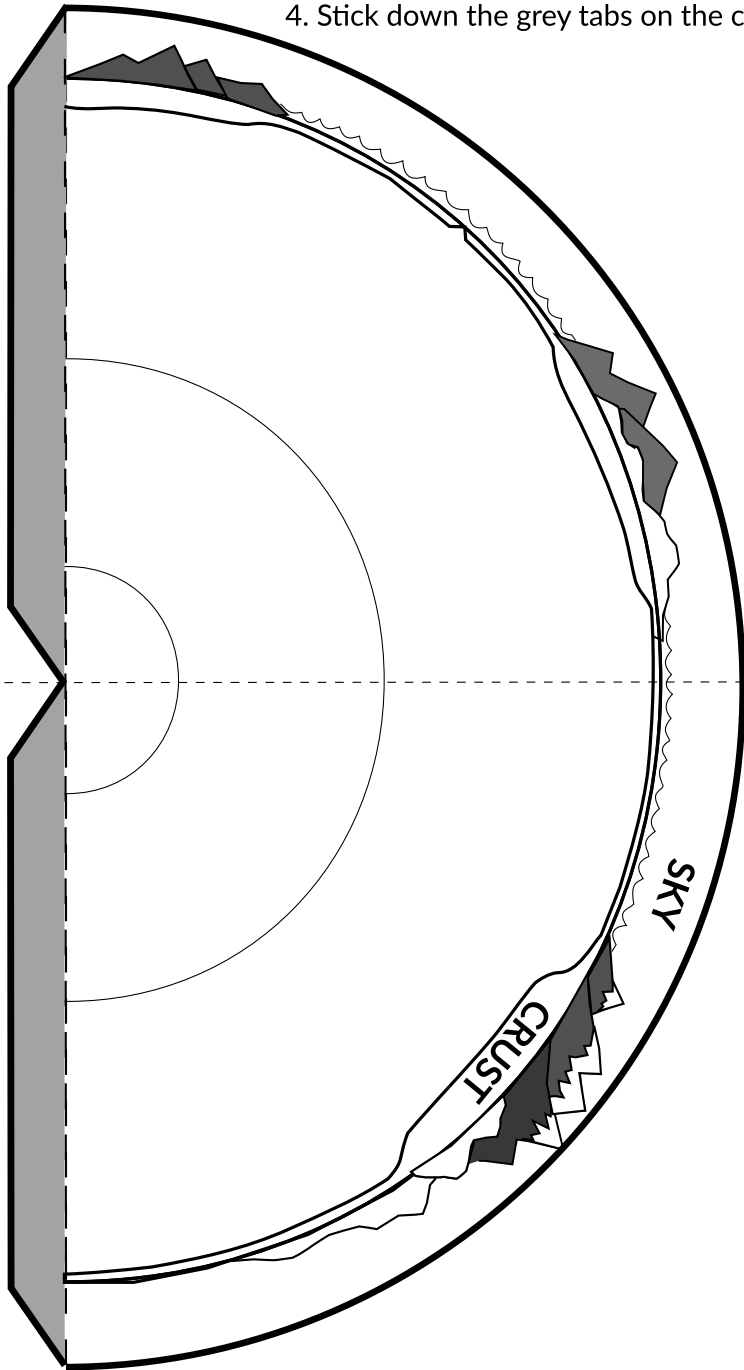

I discovered the Deep Earth
with the Deep Earth Explorers!

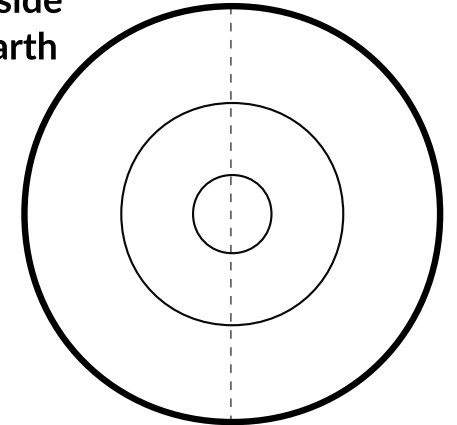

Make your own pop-up Earth card!

1. Colour in the Earth!
2. Cut out along the **thick black lines**
3. Fold along the **dashed lines**
4. Stick down the grey tabs on the card where marked

Inside
Earth

Outside
Earth
